Application No. 09/727,349
Filed: November 30, 2000
Attorney Docket No. Enz-52 (D1)

ON PETITION

This is a decision on the petition under 37 CFR 1.137(b), filed November 20, 2003, to revive the above-identified application.

The petition is **GRANTED**.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of a continuing application under 37 CFR 1.53(b); (2) the petition fee of \$1,330.00; and (3) an adequate statement of unintentional delay.

This application is being revived solely for purposes of continuity. As continuity has been established by this decision, the application is again abandoned in favor of continuing application under 37 CFR 1.53(b).

37 CFR 1.137(d) requires a terminal disclaimer dedicating to the public a terminal part of the term of any patent granted on the above-identified application or any patent granted on any continuing application that contains a specific reference under 35 U.S.C. 120, 121, or 365(c) to the above-identified application. Since the application is not a utility or plant application filed before June 8, 1995, a terminal disclaimer is not required. Accordingly, the terminal disclaimer filed with the instant petition is unnecessary. Therefore, the fee of \$110.00 will be credited to petitioner's deposit account.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3213.

The application file is being forwarded to Technology Center 1600, Art Unit 1655.
